

Half-Day Camp: PreK-Kindergarten

'X' Marks the Spot! (Monday - 3/27/23)

Maps can take us on amazing journeys, but first we must learn how to read them! In this camp, little cartographers will explore maps and symbols as they navigate a McWane treasure hunt.

Trash to Treasure (Tuesday - 3/28/23)

Let's talk trash! What happens to our garbage when we throw it away? Find the answer in this camp as we craft green creations and learn how to reduce, reuse, and recycle our waste.

Story Makers (Wednesday - 3/29/23)

Can you design a better chair for Goldilocks or help the Little Blue Truck out of the mud? Join us in the Tinker Shop as we design gadgets and inventions to solve problems from some of our favorite storybooks.

Code the Way (Thursday - 3/30/23)

In this camp, we'll learn the fundamentals of coding – the language of robots! From unplugged activities to robot exploration, join us as we discover the building blocks of technology.

The Backyard Buzz (Friday - 3/31/23)

What's the buzz in your backyard? Meet crawling critters, mix compost, and explore how insects and plants work together in this small but busy world!
